ARMOR
ASSET MANAGEMENT

ARMOR Atmos Sensor

Protect Your Gun Collection's Condition & Value.

Know when humidity moves outside your chosen limits.

HUMIDITY ALERTS TO YOUR PHONE

Keep your collection environmentally safe.

Stable conditions help protect metal finishes and wooden stocks.

NEAR 50% RH
Keep humidity consistent.

ABOUT 70°F
Maintain stable temperatures.

MONITOR & RESPOND
Inspect regularly. Manage moisture.

Atmos Sensor → **ARMOR 4+ Hub** → **Asset Central**

Temperature & humidity monitoring • Configurable alerts

Give your collection an extra layer of protection.

Ask your ARMOR representative about a complete monitoring package.

www.armordata.com

Store firearms unloaded and locked, with ammunition secured separately. Guidance: NRA Museums; NSSF. Follow manufacturer requirements.
Remote monitoring requires a compatible configured hub and active service. Alert timing depends on reporting and connectivity.
