

ARMOR 4+™

Your Asset Central™ Hub

One hub. Two ways to connect.

Mount ARMOR 4+ on a wall with a power adapter to collect nearby beacon data, or install it inside a battery-powered machine to capture equipment usage and location while collecting nearby beacon data.

9V – 90V POWER
Works with most mobile equipment

TWO INSTALL OPTIONS
Wall-mounted or inside a machine.

LTE CONNECTED
Real-time visibility anywhere.

LIFECYCLE DATA
Usage, service and cost tracking.

THE HEART OF THE ARMOR ECOSYSTEM

ARMOR BEACON™
(ATTACH ANYWHERE)

Half-dollar-sized body. Enlarged for detail.

Extends visibility to small, non-powered assets.
Tools, keys, racks, accessories and more.

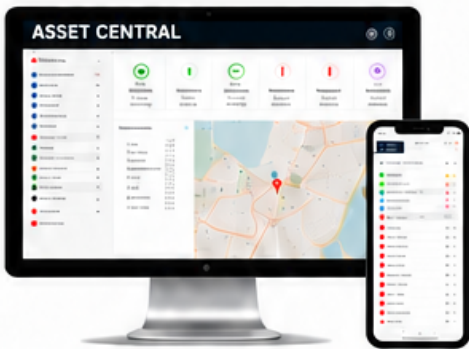

ARMOR 4+™
(WALL OR MACHINE HUB)

Collects nearby beacon data from a fixed location or a battery-powered machine.

ASSET CENTRAL
(POWERED BY ARMOR)

All asset data in one secure platform. Access anywhere. Anytime.

BUILT FOR REAL OPERATIONS

FACILITY OPERATIONS

RETAIL & MULTI-SITE

CLEANING EQUIPMENT
